

## **IDEALIST** Lite

Planting Guide

## PLANTING STEPS

STEP 1: Unpack the planter and ready for planting - (liner can be used for water barrier).

STEP 2: Fill bottom third of planter with polystyrene as void filler. STEP 3: Place a liner into the planter. STEP 4: Use hydroclay pebbles as your drainage layer. STEP 5: Place the plant inside the planter with or without grow-sleeve. STEP 6: Use Lechuza Pon or potting soil to fill the void around plant. STEP 7: Water plant thoroughly.
